*Not all UFO Activated Masks are compatible with UFO mini

USING UFO WITHOUT THE APP

2. Press once more to activate the Make My Day treatment, twice more to activate the Call It a Night treatment, and so on through each mask. For example, if H2Overdose is on slot 3 in your app, press universal button to turn UFO mini on, then press 3 times to activate H2Overdose treatment.
3. The treatment routine will begin after 10 seconds of a blinking pink light.

STILL WANT MORE?
If one UFO mini treatment just wasn’t enough, press the universal button again within 30 seconds after the end of the routine to start the same treatment over again!
APPLICATION

1. Start with clean, dry skin. We recommend cleansing with LUNA first for best results. Gently glide UFO mini across your skin, distributing the essence evenly.

2. Use UFO mini to massage the formula into your skin with a circular motion. Move the device in a clockwise circle around the face, starting on the chin, then moving up to the left cheek and the forehead. Continue down the right cheek to the chin and neck. Repeat this movement until treatment ends.

3. When the treatment ends, gently pat any remaining essence into your skin, or remove excess with a cotton pad.

4. Follow with the moisturizer of your choice.

*For the eye mask, gently glide around the entire eye contour, alternating between left and right eyes until the treatment ends.

CLEANING UFO mini

Remove the attachment ring from device and throw away the microfiber mask. As UFO mini is 100% waterproof, you can rinse both UFO mini and the attachment ring under warm running water. Then, simply pat the device dry with a clean towel, reattach the attachment ring, and place back on stand.

NOTE: Never use cleaning products containing alcohol, petrol or acetone, as they may irritate the skin and damage the silicone.
